It was stated in a communication from Mr Van Cott, presented to the Common Countil last night, that a bill is now before the State Legislature to authorise the Justices of Brooklyn to appoint their own clerks, at a salary of not less than \$1,000 a year each. The object of this bill which some interested party had presented was supposed to be, to have the Police and Justices Courts entirely beyond the scrutiny of the Common Council with the Clerks faithfully devoted to their employers, and how such an arrangement would add to the already doubtful integrity of these Courts was deemed very evident. The Board remonstrated against the passage of the act The salary of the Mayor's messenger was increased from the pitiful sum of \$250 a year to \$400 Several extensions of stage routes and the forming of new lines were reported, which will be found in the proceedings The report of the committee on Lands and Places which was pending at the recent adjournment, came up in order. Attached to the report was the report of Mr. Kellum, architect, and a number of mechanics, to whom the committee had referred the matter. The latter parties report that they found | the honey and sugar; and letters containing rethe principal rafters framed and put together in the most scientific manner, and resting on the walls perfectly safe and secure, and capable of bearing up more weight than will ever require to be placed upon them. It is well known that there was at one time some five hundred persons on the roof to see a baloon ascension in Military Garden 1849. The only defect found was in the metal roof which leaks in many places and had injured, the plastering. They recommend that the present metal roof be taken off and a tin roof substituted. On the suggestion of the committee the Commissioner of Repairs was directed to have the roof repaired under the direction of the committee on Lands and Places.

BURGH .- A few minutes before 9 o'clock yesterday morning, a fearful explosion took place in an old frame building on North-second street, between Fourth and Fifth, occupied as a Fireworks manufactory, by Messrs. Bube & Windisch. A small boy, named Michael Duncan, was instantly killed, and Mr. Charles Bube, one of the firm, expired at his residence, No. 166 Fourth street, about 3 o'clock P. M., the same day. The unfortunate man suffered intense agony, the entire surface of his body being burned in a shocking manner. A young girl named Martha Duncan, it is feared, is also fatally injured. Mr. L. Windisch, one of the firm, and several workmen, were in the building at the time of the accident, but escaped without material injury. The explosion was caused by the ignition of a quantity of Roman Candles, which had been placed with criminal carclessness behind the stove to dry. The flames spread with the rapidity of lightning to the remaining fireworks in the room, and finally, reaching the stock of gun-powder, of which there were three small kegs, a terrific report followed, and the building was blown level with the ground. The firemen were promptly on the spot, and succeeded in saving the neighboring dwellings from any serious injury from the flames. The adjoining building, however, occupied by Mr. John Higbee, as a porter-house, suffered severely from the shock-the side of the house being broken in, and the furniture partially destroyed. One of the inmates, a girl named Martha Hughes. was found in the second story, shortly afterwards, insensible from the shock. The manufactory had been in operation but a few weeks, and with such secresy had it been carried on, that few people in the neighborhood were aware of the existence of so dangerous an object in their midst.

EXPLOSION AND LOSS OF LIFE IN WILLIAMS-

SINGING IN CHURCHES .- Mr. Editor: I was present, day before yesterday, at the solemn service in St. Mary's Church, East Brooklyn, by which the Rev. Mr. Shackleford was instituted as Rector. The singing was most excellent; it was performed by a number of trained boys. This reverend gentleman is himself well versed in Church music, and has himself instructed these lads. I have, in no church, heard singing of such a solemn, impressive character. Why cannot the lads who are taught to sing in our public schools be employed in our churches, and thus their singing might be turned to a good account? If one half the money now expended to hire professional musicians was expended in training and paying these lads, we should have better music at much reduced prices.

A GREAT PARK .-- A proposition is before the Legislature to convert so much of New York Island as lies between 60th and 106th street and between the 5th and 8th and 8th avenues, into a public park. The Journal of Commerce hopes that some member will move an amendment to include the whole city in the said park, enclose it with a gold railing, and import a suitable number of wild beasts for its use and occupancy .--The whole to be paid for by a tax on the Common

Those who have not yet visited the Ladies' Fair in aid of the R. C. Orphan Asylum, had better go soon, as the Fair will close in a day or two. Those who see their own children surrounded by the comforts and luxuries of life, and the object of the tender solicitude of friends should remember the poor orphans who have no other parent than their "Father who is in Heaven." Faith and hope are christian virtues, but the best of all is charity.

SEMINARY FOR YOUNG LADIES .- We call attention to the advertisement of Rev. Mr. Tolford, who is about to open a school of high character In Warren street for young ladies. This Seminary is under the auspices of the Episcopal church. and is sustained by some of the most distinguished names of that denomination. It is to be opened in a few days.

A man by the name of Morton was arrested yesterday by officer Curry, on suspicion of having set fire to the building, No. 50 Fulton street, on Tuesday night. A girl who resides in the house says she saw him on the premises shortly before the fire was discovered. He was committed for examination.

Suspicious .- Punch sees in the billing and cooing of two birds, which is used so often to represent marriage, some things which it might not be amiss for others to see. His thoughts on the subject are thus expressed :

Or let the wreath, when raised, a case reveal,
Wherein two doves their little bills entwine:
(A vile device, which always makes me feel
Marriage would only add your bills to mine)

STOLEN.-Yesterday evening a parcel, valued at \$60, was stolen from an express wagon, standing in Atlantic street, while the driver was delivering some packages of goods. The thief

COURTS. [Reported for the Brooklyn Daily Eagle.] Before Judge Moore and Justices Stilwell and Stryker

In the Court of Sessions, yesterday, George Wahl was arraigned on an indictment for carrying a slung shot, to which he pleaded guilty, and was sentenced to the State Prison for the term of two years and seven days. The prisoner had previously been tried on the charge of forgery committed in Williamsburg, about a year ago, but the jury were unable to agree, and he was remanded for trial on the second indictment, as above. He was formerly a resident of Philadel-

Adam Cook was indicted for assault and battery with an attempt to kill his wife, Eliza Cook, and being convicted by the Jury, was sentenced to be imprisoned in the State prison at Sing Sing for eight years and three months to hard labor. The prisoner was 41 years of age and by trade a carpenter. He was arrested by Deputy Sheriff Friend, on the 6th of January last, for having on the previous day shot his wife with a pistol." wounding her in the arm and other parts of her person. He resided in the town of New Utrecht.

As goes New York so goes Brooklyn. [For the Brooklyn Daily Eagle.]

MR. EDITOR :- It has been remarked, as goes the city of New York so goes the State, especially her sister cities included. There is evidently truth in this remark.

The citizens of New York groan under extravagant taxation, so does Brooklyn. The city of New York is said to suffer from unwarantable legislation, so has Brooklyn. New York urges spleadid salaries in the absence of appropriation, so does Brooklyn. New York, with 550,000 inhabitants, pays her Mayor a salary of \$3,000, and Brooklyn with her 125,000 inhabitants is striving to do likewise. Men in New York seek office as a favor, with a stipulated salary, and forthwith begin teasing for more, just so we do in Brooklyn New York has established an expensive High School, of somewhat doubtful utility; Brooklyr has been agonising to do the same thing, while in want of increased Common School accommoda

New York now has a Comptroller that allows no expenditure unauthorised by law. Will our Brooklyn Comptroller take the same independent stand and follow so good an example?

Banks have multiplied in New York almost equal to grog shops; Brooklyn is about to follow

In addition to five well organized banks, andther is talked of in the vicinity of Maine street another at the junction of Washington and Fulton streets; and why not another in the vicinity of Fort Greene? one at East Brooklyn? one at Bedford? one at New Brooklyn? one at East New York? one at Hamilton avenue? and one at Greenwood? in all, fourteen banks, and room for as many more. Why not as many banks for savings and insurance companies, for the accommodation of the public? A splendid chance for presidents and cashiers. And why not establish a board of brokers, that might give us a chance for a few bulls and bears to regulate the price of stocks accumulating in our midst, embracing county and city bonds, and especially the many millions of water stock. Such a board might be an accommodation, not only to Brooklyn, but to the whole state of Long Island. Why not progress with the times, and "go it while we are young ?" for it is said two things are sure-death and taxes-and something must be made to pay them. It has also been said, what has been will be again; so let us prepare for a repetition of

A dispatch from Charleston, S. C., states that Chesterfield jail has been consumed by fire, and eight of the prisoners perished in the flames. The jailor and one debtor made their escape Gov. Ujhazy, the Hungarian refugee and leader of the Hungarian settlement at New Buda, has sold out ais land, and leaves in the spring for Texas, where he has bought some hundreds of acres. The Hungarians who remain in Iowa have elected Joseph Majthenyi, formerly member and secretary of the Upper House of Hungary, their chairman, in place of Ujhazy The steam fire engine in Cincinnati, works well, and is highly spoken of. When the last fire occurred, about a week ago, it arrived six minutes after the alarm was given, and poured six streams of water on the fire A company has been formed with a perpetual charter under the railroad law of Indiana, for the purpose of constructing a road and docks to pass the largest boat and cargo (without breakand permanently organized by the election of ing bulk) around the Falls of the Ohio, in the very short time of from thirty to fifty minutes-The project is pronounced practicable by eminent engineers, and preferable in some points of view, to a canal. The cost is estimated at \$600, 000 A negro girl has been arrested in Chester county (Pa.) for attempting to murder the little daughter of Mr. A. W. Pennock, a child only five or six years of age. The details, as published. are as follows:-"It appears that she took the child to the barn, and, notwithstanding its cries and entreaties, put a rope round its neck, and drew it tight, until she silenced it by strangulation, when, supposing it dead, she loosened the rope and threw the child on its face in the garden. Fortunately it was discovered by an Irish servant girl soon after, but it was several hours before it could articulate a word. The negro girl was arrested, and made a confession, allegng she intended to murder the child for slapping

> her face. The President has requested the Senate to pro-

long its session for ten days longer.

MR. O'Conor. The Evening Post in speak ing of the New York appointments, savs :-

"The selection of Mr. O'Conor for the office of District Attorney, is one which reflects the highest honor upon the administration, and will be received with general satisfaction by the profession of which he is one of the greatest ornaments this country has yet produced. Though we have often differed politically, we have never hesitated to express the opinion, based upon a long professional, and a longer personal acquaintance, that Mr. O'Conor is a man for whom none of the honors of his profession would be too exalted, and that he could receive from none as much distinction as his talents and probity would confer. Should he accept, and we sincerely hope he will, although the step would involve considerable pecuniary sacritices, he will discharge the duties of the office as few persons can, and as fewer would, for he is the last person in the world to soil his hands with unlawful or thearned gains in any position in which he may be placed.

A portion of the Long Island press are agitating a re-division of the Island into counties. It is proposed to make Brooklyn, Williamsburgh and Bushwick a city and county by themselves : the remaining portion of Kings county to be uni ted with Jamaica, Newtown and Flushing-those to form Queens county. A new county is proposed to be erected out of parts of Queens and Suffolk, including parts of North Hempstead,

THE APPOINTMENTS .- The rumors are that nei ther Dickinson, Dix, nor O'Connor will accept. A letter from Albany, in the Herald, says : "Mr. O'Connor is here, and openly declares that as he was not a candidate, he will not accept the appointment of United States District Attorney.'

The Cabinet has decided upon the following Baltimore nominations: Philip Francis Thomas, Collector; J. G. Davis, Postmaster; J. C. Wharton, Surveyor; J. H. Briscoe, Navy Agent; Jas. Polk, Navy Officer; J. M. Watkins, Marshal; P. Poulteney and M. McBean, Appraisers.

ITALIANS TO ABRIVE .- The editor of the New ark Daily Advertiser, in a letter from Italy, says that several hundred refugees, under arrangement with the Sardinian Government, were to be sent in a few days in a public ship to America.

INDIAN AGENCY .- The President, by and with the advice and consent of the Senate, has appointed the celebrated Kit Carson to an Indian Agenev in and for New Mexico.

Judge Merrick (democrat) has been appointed Judge of the Supreme Court of Massachusetts, to fill the vacancy occasioned by the resignation of Judge Cushing.

The Pittsfield (Ill.) Union states that a marriage came off near that town between a couple' whose united ages make one hundred and forty years. The bride is aged sixty-two, and the bridegroom seventy-eight.

T A MEETING OF THE REGULAR BUTCHERS of the CITY OF BROOKLYN, held at BUTCHERS of the CITY OF BROOKLYN, held at the City Hotel, on Monday evening, March 28th, 1833, the following preamble was unanimously adopted:

Whereas, In consequence of very many complaints made by the citizens of Brooklyn, in reference to unwholesome meats being exposed for sale in many places in this City, we the undersigned Regular Butchers, take this method of informing the inhabitants generally where they may depend upon at all times being supplied with the best meats the market affords, at market prices. We, the aforesaid Butchers, pursue this course in justice to cursoives, and to protect the public from imposition by a numerous class of individuals that pretend to be Butchers, but unfortunately for the public, those pretended Butchers do not in reality know themselves when they are buying diseased or unwholesome meat, and in consethey are buying diseased or unwholesome meat, and in conse-quence of their ignorance in this respect, the public are tre-quently supplied with unwholesome meat. We have had cases of this nature brought before our City Authorities, and the offenders convicted. In view of these facts, we, the Regu-lar Burchers of the City of Brooklyn, piedge onaselves to the public to supply them with means of our own staughtering, and to do all in our power that is consistent with our trade, to

prevent meat being sold that is not slaughtered by ourselves.
